

(Children Resolution and Women Learning)

CRAWL (Children Resolution and Women Learning) society is a Volunteer Organization who Welcomes all National and International Volunteers and Students to participate in our different Welfare activities for the under privilege children and women in India.

Our foremost objective is to make better world for the poor kids and women. Through our many projects we have a plan to connect many poor children and women as possible. Therefore we need many volunteers to help us with this task, people who have the same desire for a better world for our children. We invite the volunteers to join with us, for the more progress we can achieve.

Our vision is to establish non-formal free schools and vocational training centers for the poor kids around INDIA. We also have a plan to arrange different training programs to enlighten the poor women.

One “**Shikshan (Non formal education)**” center and '**PATHASHISHU UNNAYAN PROJECT (Street Children Beneficial Projects)** are already established in Kolkata. Thrice in a year, we also have several work camps, where volunteers get the opportunities to work in slum and street for two or three weeks

We will arrange **work camps** for the International Volunteers thrice in a year at the interval of four months.

Interested Volunteers and Groups are requested to come and join in the work camp.

We have different projects and some projects will take place in coming future where you may take part and help organization to raising funds.

We have a plan for coming future Projects:

Establish many non-formal educational centers 'Shikshan' for the unprivileged poor kids of different areas.

Establish half way shelters for the poor needy helpless kids.

Arrange free medical check up for the poor kids periodically by a group of doctors.

Arrange different Vocational Training Center for the poor kids and women to make them economically self-sufficient. We will form various self help groups by these poor kids and women.

Establish safe and secure night shelter for the poor street kids.

Arrange various training programs for the poor women about the pre natal care, family planning, and HIV AIDS.

For such projects we need the help from the Volunteers. We welcome all the Organizations and Universities to send their Volunteers and students. Other groups of Volunteers and individual

(Children Resolution and Women Learning)

Volunteers are also invited to help us in different projects to make a better situation for the poor kids and women.

Volunteers and Students are requested to come and join in different projects of Crawl

Project Details

Our foremost objective is to make better world for the poorest of the poor kids and women. Through our many projects we have a plan to connect many poor children and women as possible. We have different projects for the benefits of the poor kids and women living in the slum and street.

1. SHIKSHAN (Non-formal Educational Centre) PROJECT:

The Project is designed for the special benefits of the kids who are living in the slum areas of Kolkata (Calcutta). In this center, we give them educational training along with necessary educational materials, entertainment programs, cloths, medical support and other kind of help if any.

In the slum areas the men are engaged in day labour and in most of the cases women are worked as maidservant. Normally the children of the slum areas are first generation learners. As their parents are not properly educated, they are not able to help their children in education, and their home environment is not suitable for education.

To give support to these kids we establish **SHIKSHAN** where they get the all facilities of education by a group of experts. Here they get the proper environment for education. We teach Basic Mathematics, Languages (English, Bengali and Basic Hindi), Social Science, General Knowledge and beside these crafts training are also provided for them. We also teach some kind of Physical Exercises for their body fitness. We also provide free medical support to the kids as per their need.

Now we have already started one non-formal educational center under **SHIKSHAN** project at Khardah slum area. We have a plan to establish similar educational centers at the different slum areas in and around Kolkata for the betterment of the needy slum kids.

For this program we need help from the Volunteers, who will help the organization to serve for these needy and poor kids. Therefore we invite Volunteers from all over the World to join with us, to teach the kids and to make a better future for them.

2. PATHASHISHU UNNAYAN (Street Kids Beneficial) PROJECT:

The Project is started to help the street kids where we provide educational support, food, cloths, and medical treatment for the poor kids and lactating mothers.

The glitter of Kolkata's urban life has been inducing the poor rural families. The people come from surroundings rural areas and settle down in Kolkata in search of jobs to maintain their livelihood, but they find themselves totally disappointed because the city of Kolkata has failed to fulfill their aspirations. However, there was no way of return for those poor families. As they have no permanent shelter in the city, they are ultimately forced to take shelter on the pavements, the canal-sides and side of railway tracks of Kolkata (Calcutta) with their families. When a family that

(Children Resolution and Women Learning)

cannot hold together the children, who are half-fed and half-naked, must necessarily ramble about somewhere.

It was our one of the main Projects and the first center of this Project, which is running at Sealdah Railway Station. Here we start the work normally at the early morning from 5.30a.m. for the benefits of these needy kids. It is one of the main stations of Kolkata and many needy, homeless children live here with their families and some of them live there alone without any parental care. These needy children don't get proper medical support because local Hospitals and Health Centers do not take care of the street dwellers. The program is continued for two and half hours. During this time we clean these children and supply a breakfast. After this we also give a basic education to each of them. Beside education we also try to give some enjoyment through drawing, different games, exercise etc. We also provide cloths to these needy kids on a certain interval.

At present, we run this program thrice in a week and we will run this program regularly near future. We have a mind to start similar nature of program at the other stations of Kolkata to give support many needy kids as much as possible.

For this Project we need huge volunteers who have soft mind to serve for these street kids.

3. SASTHYA PARISEVA (Free Medical check-up) PROJECT:

This is one of our proposed projects in which we will arrange free medical check-up by a group of medical experts for the needy slum kids. In most of the slum areas, people are not aware about different infectious as well as contagious diseases. It needs to aware them about such diseases and how to take prevention from these diseases in different angles. Medical check-up will be arranged by the organization at regular intervals. We will also arrange vaccination to these kids to prevent different transmissible diseases.

For this Project, we need volunteers especially from the medical background. Other volunteers who have the basic first aid knowledge can also join.

4. SWANIRVAR (Self Help Group) PROJECT:

To make a Self-Help Group of children between the age of 12 to 15 years, we will arrange crafts training program for them by a group of experts.

Actually the slum people are very poor and they are suffering from stringent monetary condition. The main object of this Project is to make the slum children self-sufficient through special crafts training and to earn money to support their families in time of need. We also have a mind to start similar type of project among the women folk of the slum area to reduce the economical need.

We invite volunteers from all over the world to train children and women and to make them self-sufficient.

5. MAHILA SHACHETANATA (Women Awareness) PROJECT:

1) To take pre-natal care, we will arrange awareness program for the slum women. We will also arrange vaccination to the pregnant through nearest Govt. Hospitals or Health Centers to protect the mother and the child.

(Children Resolution and Women Learning)

2) Influx of population is one of the major problems in India. The people live in slum and street areas are maintaining their life below poverty line and they are not able to maintain their children properly but still in most of the cases it is observed that they have number of children. It is happened just due to lack of awareness. They have no idea about family planning and different measures of contraceptives. We are in a mind to start family planning awareness program for these needy people to control over this situation.

3) Today our world is suffering from the problem of HIV AIDS. India is also in alarming condition. So we will arrange HIV AIDS awareness program among the slum dwellers about the virus and its transmission.

We eagerly invite volunteers all over the world to join with us and help us to combat these problems.

INTERNSHIP PROGRAMME

The organization has a Special facility for Internship Program. We welcome all the International students for this program.

The students who are willing to do volunteering in their holidays and like to gather experience and knowledge to work in different cultures are most welcomed to our Organization.

They can join in our following programs:

- Teaching English and other Indian languages.
- Indian culture and tradition.
- Social survey in various parts of Kolkata (Social-cultural condition, educational system, behavioral patterns, life style etc.).
- Different women and gender issues.
- Learning Yoga

During this program volunteers will stay in a separate flat as a group/individually and get the opportunity to prepare the report on their survey work. Volunteers will get constant support from the organization to cope up the barrier of local language and other problems if any. The volunteers will receive a special guidance by the social science experts during their survey works.

Detail Schedule

Duration of the program: 2 weeks – 3 months (as per volunteer's choice)

Working Hours: 20 – 25 Hrs. per week (flexible as per need)

Work Place: In and around Kolkata city

Age: 16 years and above

Food: Four times daily (local food).

Accommodation- In a separate flat as a group/individual.

(Children Resolution and Women Learning)

The volunteers are invited to join internship program throughout the year.

For detail of Registration Fees, please contact to our Head Office through e-mails.
